

Rule #5 — Wall stud service hole @296

Example: HG260001 | plan GF-LBW-70.075 | frame PK1-L1 | stick S1
Service hole @296 — emitted on every wall stud, but Detailer is selective about WHICH studs.

CODEC
EMITS
extras)

DETAILER
REF
missing)

Stick totals on this example:

- Matched ops: 7
- Extras (codec emits, Detailer doesn't): 1
- Missing (Detailer has, codec doesn't): 3

How to read:

- Top strip = ops the CODEC currently emits but Detailer's reference doesn't have (red = wrong-emit).
- Bottom strip = ops Detailer's reference has but the CODEC doesn't emit (red = miss).
- The yellow bar in the middle = the stick body, drawn to scale.
- Spans (Swage/LipNotch/InnerNotch) are coloured rectangles.
- Points (InnerDimple/Bolt/Web) are vertical lines + dots.
- Anchors (Chamfer @start/@end) are at the very ends.
