

Rule #32 — B plate Web@8 (slab wiring access) — gates uncertain

Example: HG260001 | plan GF-LBW-70.075 | frame PK1-N1 | stick B1

Web@8 (slab wiring) — only on primary B + GF + LBW/NLBW. Confirm gates.

CODEC EMITS

(extra)
Detailer
doesn't
have these

DETAILER REF

(missing)
codec
should have
emitted these

Stick totals on this example:

- Matched ops: 16
- Extras (codec emits, Detailer doesn't): 2
- Missing (Detailer has, codec doesn't): 0

How to read:

- Top strip = ops the CODEC currently emits but Detailer's reference doesn't have (red = wrong-emit).
- Bottom strip = ops Detailer's reference has but the CODEC doesn't emit (red = miss).
- The yellow bar in the middle = the stick body, drawn to scale.
- Spans (Swage/LipNotch/InnerNotch) are coloured rectangles.
- Points (InnerDimple/Bolt/Web) are vertical lines + dots.
