

Rule #80 — Br/R Dimple at 11mm

Example: HG260044 | plan GF-TIN-70.075 | frame PC2-1 | stick R3

Br/R InnerDimple at 11mm (vs 16.5 for studs).

Stick totals on this example:

- Matched ops: 1
- Extras (codec emits, Detailer doesn't): 3
- Missing (Detailer has, codec doesn't): 45

How to read:

- Top strip = ops the CODEC currently emits but Detailer's reference doesn't have (red = wrong-emit).
- Bottom strip = ops Detailer's reference has but the CODEC doesn't emit (red = miss).
- The yellow bar in the middle = the stick body, drawn to scale.
- Spans (Swage/LipNotch/InnerNotch) are coloured rectangles.
- Points (InnerDimple/Bolt/Web) are vertical lines + dots.
