

Rule #85 — Crossings: nog gets notches from stud

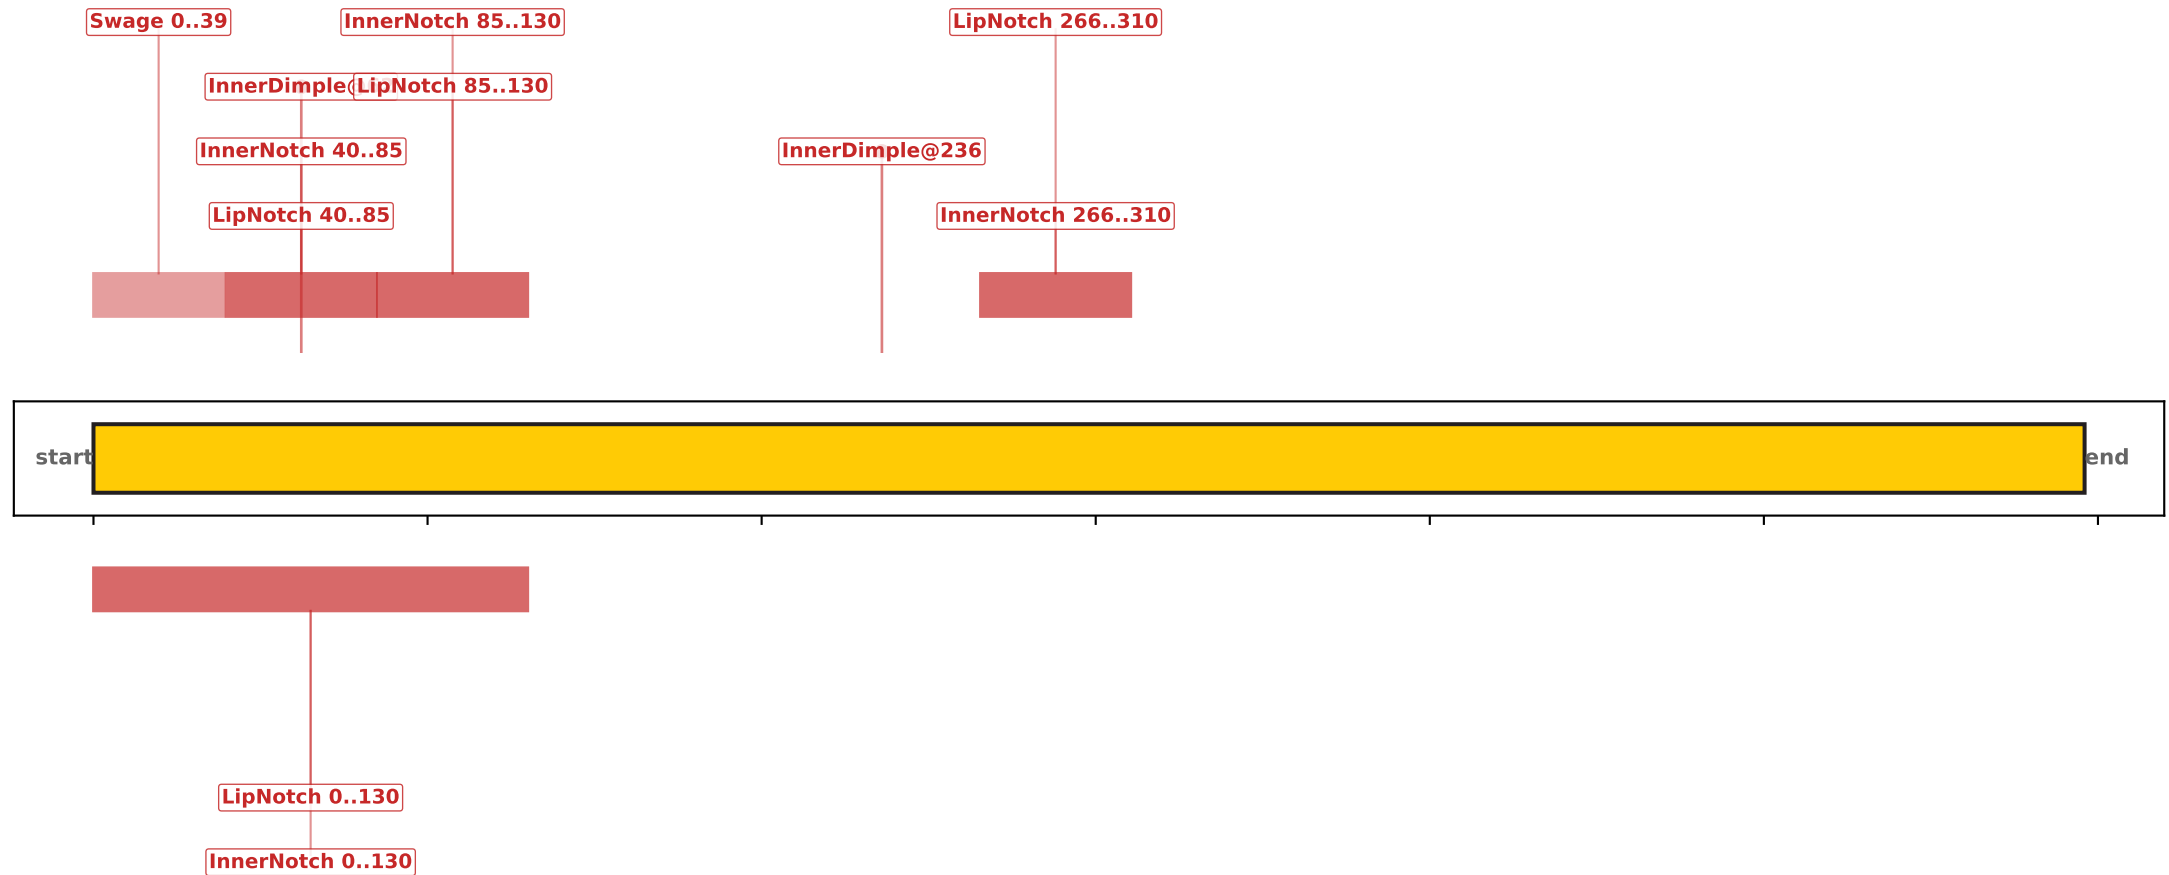

Example: HG260001 | plan GF-LBW-70.075 | frame PK4-L4 | stick N1

Crossings on nog from stud — Web+LipNotch+Dimple combination.

CODEC EMITS

(extra)

Detailer
doesn't
have these

**DETAILER
REF**

(missing)

codec
should have
emitted these

Stick totals on this example:

- Matched ops: 18
- Extras (codec emits, Detailer doesn't): 9
- Missing (Detailer has, codec doesn't): 2

How to read:

- Top strip = ops the CODEC currently emits but Detailer's reference doesn't have (red = wrong-emit).
- Bottom strip = ops Detailer's reference has but the CODEC doesn't emit (red = miss).
- The yellow bar in the middle = the stick body, drawn to scale.
- Spans (Swage/LipNotch/InnerNotch) are coloured rectangles.
- Points (InnerDimple/Bolt/Web) are vertical lines + dots.
