

# Rule #89 — TB2B simplifier — untested at scale

Example: HG260001 | plan GF-TB2B-70.075 | frame TN6-6 | stick T4

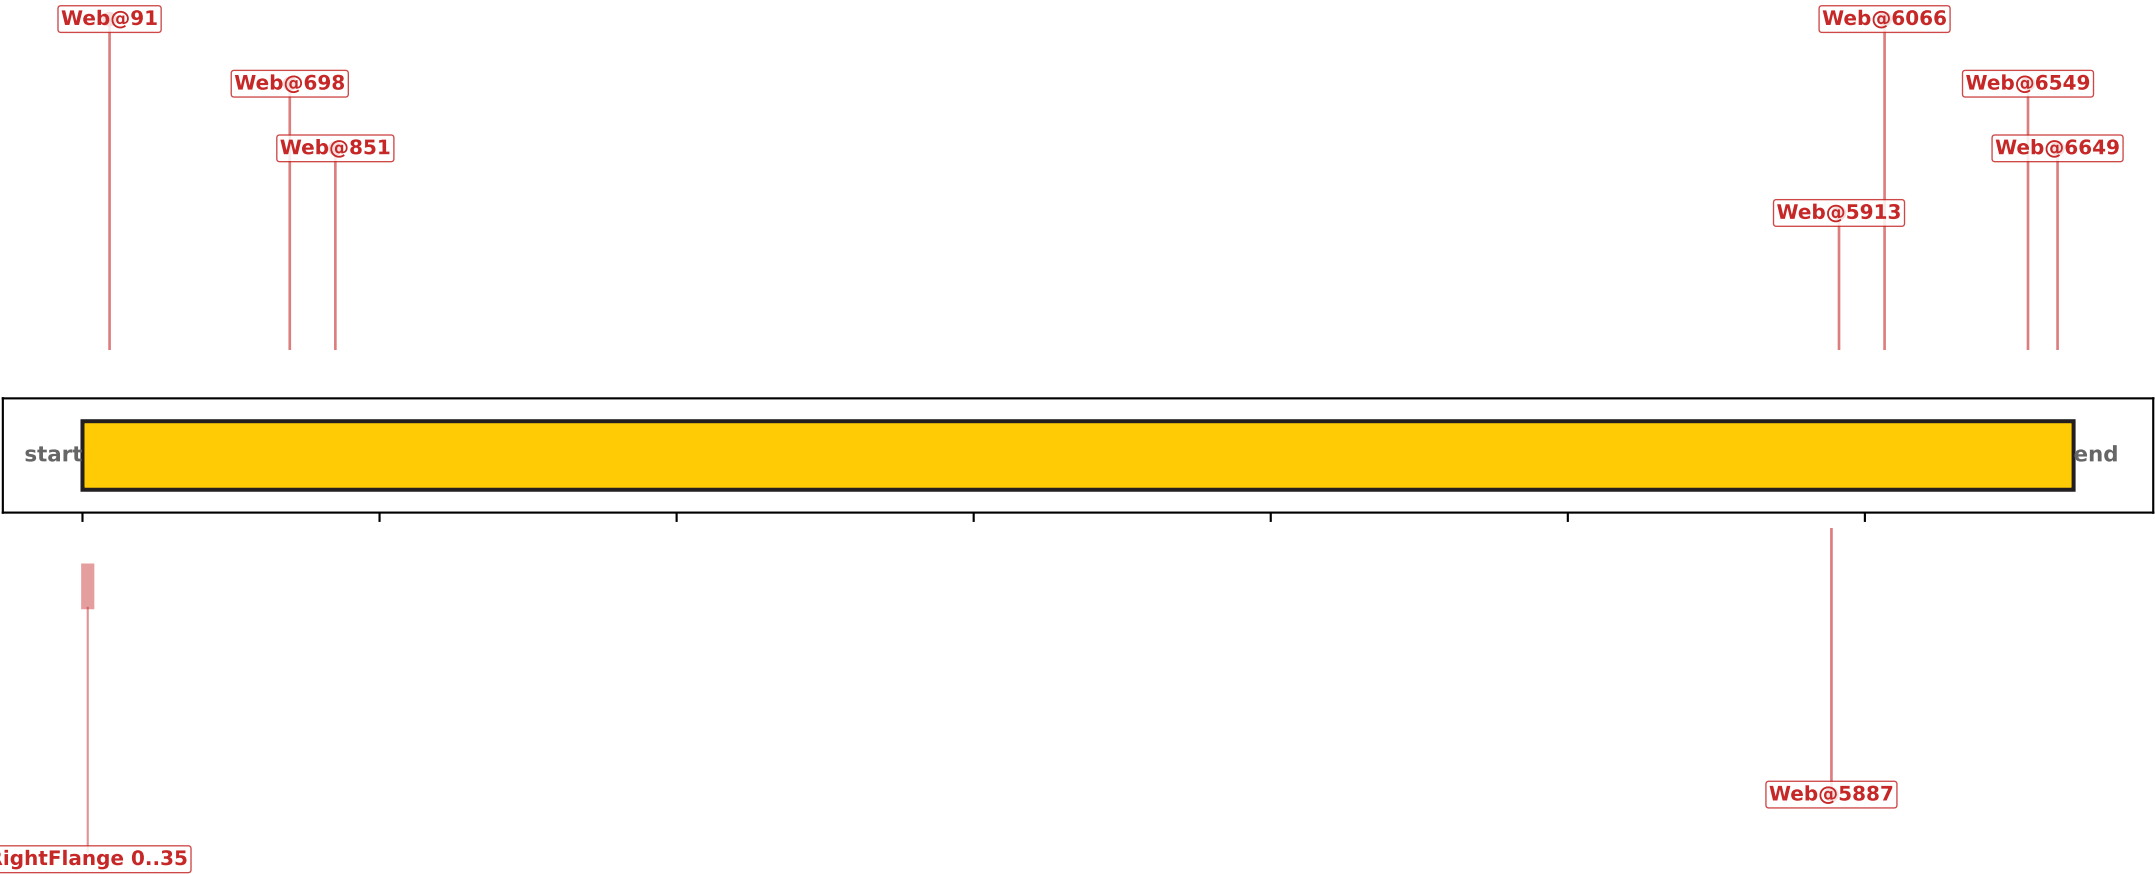

TB2B simplifier — untested at scale. Show the cap pattern.

## CODEC EMITS

(extra)  
Detailler  
doesn't  
have these

## DETAILER REF

(missing)  
codec  
should have  
emitted these

### Stick totals on this example:

- Matched ops: 22
- Extras (codec emits, Detailler doesn't): 7
- Missing (Detailler has, codec doesn't): 2

### How to read:

- Top strip = ops the CODEC currently emits but Detailler's reference doesn't have (red = wrong-emit).
- Bottom strip = ops Detailler's reference has but the CODEC doesn't emit (red = miss).
- The yellow bar in the middle = the stick body, drawn to scale.
- Spans (Swage/LipNotch/InnerNotch) are coloured rectangles.
- Points (InnerDimple/Bolt/Web) are vertical lines + dots.
